## ABOUT ME

Computer Science student specializing in Artificial Intelligence at Bina Nusantara University (GPA: 3.81/4.00) with experience developing AI solutions for accessibility, media analysis, and environmental challenges. Skilled in machine learning, computer vision, NLP, and experience in backend development, with leadership experience managing educational programs for 120+ participants. Passionate about leveraging technology to create meaningful social and environmental impact through data-driven solutions.

## PROJECTS

### Money Talks: Computer Vision-Based Currency Recognition for the Visually Impaired 2026

**Role:** AI Model Developer; **Tools:** Python, OpenCV, ORB, BoVW, TF-IDF, SVM

- Developed a computer vision system to help visually impaired individuals identify currency denominations.
- Achieved 81% classification accuracy using ORB feature extraction and machine learning techniques.
- GitHub: [github.com/ciriciri123/MoneyTalks](https://github.com/ciriciri123/MoneyTalks)

### Political Bias Classifier 2026

**Role:** AI Model Developer; **Tools:** Python, NLP, Word2Vec, TF-IDF, NER, Machine Learning

- Built an NLP-based system to classify political bias in news articles and support more objective information consumption.
- Achieved 88% classification accuracy by evaluating multiple machine learning models and feature engineering approaches.
- GitHub: [github.com/ciriciri123/PoliticalBiasClassifier](https://github.com/ciriciri123/PoliticalBiasClassifier)

### Flood Prediction Model Using ENSO and IOD Indicators 2026

**Role:** Team Leader & AI Model Developer ; **Tools:** Python, Random Forest, Bayesian Optimization

- Led the development of a flood prediction model leveraging ENSO and IOD climate indicators for one-month-ahead forecasting.
- Achieved an AUC of 0.7459 and improved performance by 7.6 percentage points over the untuned baseline.
- Demonstrated the value of climate-related features in enhancing predictive accuracy for environmental risk assessment.

## WORK EXPERIENCE

### Bina Nusantara University

*Part-time laboratory assistant*

Tangerang Selatan

August 2025 - Present

#### Key Responsibilities

- Lecture 15 different classes and 8 different software laboratory subjects (e.g. Human-Computer Interaction, Programming for Business, Software Architecture, etc). Achieved a satisfaction of 3.78/4.0
- Assist students' subject understanding (debugging, programming concept, best practices, etc)
- Evaluating students' quizzes, projects, and final exams
- Designing project cases for practicum evaluation (e.g. Computer Graphics using ThreeJS)
- Proctoring mid and final exams

---

## ORGANIZATION EXPERIENCE

### AIESEC in BINUS

*Team Leader of Program Specialist in Engagement with AIESEC*

*Staff of Program in Engagement with AIESEC & Brand Activation*

Tangerang Selatan

February 2026 - Present

February 2025 - January 2026

#### Key Responsibilities

- Led a team of 4 in designing a 2-month leadership curriculum for 120 delegates and 20 coaches.
- Developed and assessed a capstone project comprising 3 mini-projects to measure participant learning outcomes.
- Managed the execution of 7 program events, including 4 core capacity-building sessions.
- Secured 4 speakers and 2 panelists, and facilitated a collaboration with Kawan Lama Group.
- Oversaw event operations, stakeholder coordination, and technical execution to ensure seamless delivery.
- Achieved an average participant satisfaction score (NPS) of over 9.5/10 through continuous program improvement.

*Organizing Committee of Program for Incoming Global Volunteer (IGV) Winter Peak* August 2025 - January 2026

**Key Responsibilities**

- Craft a 6 weeks weekly schedule and agenda details for Local Volunteers (LV) and Exchange Participant (EP).
- Accommodate partner's demands that relate with program activity.
- Orchestrate a project called 'On The Map' that aligns with the SDG target 8.9.
- Prepare session rundowns and materials.
- Execute and be a Person In Charge for IGV sessions.
- Induce and monitor project progress handled by LV and EP.

*Conference Committee Vice President of Delegate Service for LC5LC*

September 2025 - December 2025

**Key Responsibilities**

- Lead a team of 13 people from 5 different universities.
- Distribute tasks that relate to delegate service (broadcasts, forms, WhatsApp community, etc).
- Conduct and lead meetings for onboarding, preparations, and discussions for the team.
- Create a tool by using Google Sheets for progress tracking, assigning tasks, and job distribution.
- Craft a delegate dashboard using Google Sheets that includes event details, group distribution, and lost & found.
- Synergize with different divisions regarding delegates' flow and event information.
- Maintaining communication and assistance to the delegates from pre-event to post-event.

**Himpunan Mahasiswa Teknik Informatika (HIMTI)**

Tangerang Selatan

*Website developer for HISHOT 2025*

April 2025 - July 2025

**Key Responsibilities**

- Develop a part of the front-end using node.js and CSS (tailwind).
- Utilize GitHub and git for version control and a tool for collaboration.

**The Zen's Action**

Tangerang Selatan

*Co-founder & Head of Content Creation*

July 2021 - May 2024

**Key Responsibilities**

- Grew the account to 730+ followers from ground-up
- Led discussions on the strategic direction and content approach for the organization.
- Developed and executed plans to align content with our organizational goals.
- Managed and assessed the performance of the content committee, ensuring high-quality content creation.

---

**SKILLS**

**Programming Languages:** Python, Java, Go, C, C++, JavaScript, TypeScript, PHP, HTML5, CSS, R (Basic)

**AI & Data Science Tools:** OpenCV, Scikit-learn, Pandas, NumPy, Word2Vec, TF-IDF, ORB, Bag of Visual Words (BoVW)

**Backend Development:** NestJS, FastAPI, Flask, Laravel, REST API Development, Microservices Architecture

**Database Management:** MySQL, Supabase

**DevOps & Software Engineering:** Docker, Git, GitHub, Postman

**Design & Collaboration:** Figma, Canva, Agile Collaboration, Technical Documentation

**Professional Competencies:** Team Leadership, Project Management, Stakeholder Management, Cross-functional Collaboration, Curriculum Development, Event Operations, Public Speaking, Technical Documentation, Problem Solving

---

**EDUCATION**

**Bina Nusantara University**

Tangerang Selatan

*Computer Science, Streaming: Artificial Intelligence*

September 2024 - Present

- Finalist of Hackathon 8.0 by Binus Computer Club (BNCC)

**Santa Lurensia**

Tangerang Selatan

*High school graduate (Merdeka Curriculum: ICT, Mathematics, Physics)*

July 2021 - May 2024

- Actively participated in student events (e.g. Laurensia Cup, LiVi Theater Performance, etc)
- Won research competitions (e.g., Gold in ISPO 2023, Bronze in I-FEST2 2023)
- Conduct several research projects related with environment and biology
